

TinkerMill

YOUR COMMUNITY MAKERSPACE

TinkerMill, located in Longmont, Colorado, is the largest makerspace in the Rocky Mountain region, with more than 650 paying members and more than 3,000 active members on our online Meetup. We are a **501(c)(3) non-profit public charity**, whose exceptionally talented membership provides a community workshop supporting each other and other community entities by learning, teaching, collaborating, and creating.

We are involved in the economic development efforts of Longmont and encourage new product and business creation through mentoring and on-site office and workshop space. We are leaders in our community and powerful advocates for entrepreneurship, science, technology, engineering, art and math.

TinkerMill, is proud to offer a variety of resources to the community, including equipment ranging from saws to soldering irons, throwing wheels to 3D printers, sewing machines to an 80-watt laser cutter. We are often asked “What can you do here?”, but as on TinkerMillian put it, “What can’t you do here?” Classes and workshops are held daily, and there is always an opportunity to learn something new, maybe even something unexpected.

With 13,000 square feet to work with, TinkerMill is a versatile and customizable workspace. We adapt to suit the needs of our community. We are always looking for ways to expand what we can offer to help Longmont learn.

WHAT CAN YOU MAKE HERE?

Our Shops:

- 1. Electronics**
Robotics, IoT, Arduino, sensors, etc.
- 2. Rapid Prototyping**
Laser cutting, 3D printing, etc.

MIG, TIG, Oxy-Acetylene. Weld on.
- 14. Blacksmithing**
Hot metal. Sparks will fly.

Our community includes artists, engineers, scientists, entrepreneurs, makers, and tinkerers, all of whom share a passion for learning, collaborating, and helping others do the same. By teaching classes, and volunteering, our members make TinkerMill amazing. Members are welcome in the space 24/7, receive discounted rates on classes, and can access more technical equipment after certification.

Membership Process:

1. Payment and Paperwork
2. Orientation
3. Certification Classes
4. Enjoy
